[COVID-19 Youth Testing](#) | UPDATED: 5/5/2020

The Court is working with the City of Columbus Health Department and Nationwide Children's Hospital to prevent the spread of the virus within the facility and to provide care for youth who test positive.

* Currently all youth are undergoing testing. Upon recommendation of the Health Department, all units/youth are isolated/quarantined until testing results are complete. Youth will be separated by test result upon completion, in consultation with health authorities and medical professionals.
